Aerospace Materials and Manufacturing -----	18
Fracture Control in Engineering -----	267
Light Metals - Advances in Materials and Processes -----	381
Management of Innovation -----	777
Materials for Clean Energy -----	1096
Materials Degradation and Control -----	1129
Nanomaterials -----	1209
Advances in Refractories -----	1235
Rheology in Mineral Processing -----	1761
Sustainability for Profit -----	2135

Table of Contents

Aerospace Materials and Manufacturing: Advances in Materials, Processes and Repair Technologies

Foreword	v
Editors' Biographies	vii
Symposium Co-chairs and Session Chairs	viii

PLENARY AND HIGH TEMPERATURE ALLOYS DEVELOPMENT

Green Engines in Aerospace: The Contribution of Materials (ABSTRACT ONLY)	3
<i>F. Berube and M. Bissinger</i>	
Alloy Design Approaches for Single Crystal Superalloys (ABSTRACT ONLY)	5
<i>R. Reed</i>	
Development of Ni-base Single Crystal Superalloys Having a Balance Between Castability and Creep Strength (ABSTRACT ONLY).....	7
<i>A. Sato, Y. Aoki and M. Arai</i>	
Design of Solution Heat Treatments for Aerospace Alloys.....	9
<i>J. Beddoes</i>	
A Microstructural Study of the Fatigue and Dwell-Fatigue Behavior of ATI 718Plus® Alloy	21
<i>J. Tsang, R.M. Kearsey, P. Au, S. Oppenheimer and E. McDevitt</i>	

MANUFACTURING PROCESSES AND MODELING

Manufacturing Processes, ModellIng and the Business of the 21 st Century Manufacturing	37
<i>N.L. Richards</i>	
Effect of Defocusing Distance and Weld Speed on Laser Welding of Ti-5Al-5V-5Mo-3Cr	55
<i>T. Shariff, X. Cao, R.R. Chromik, J. Gholipour Baradari, P. Wanjara, J. Cuddy and A. Birur</i>	
Linear Friction Welding of Ti-5Al-5V-5Mo-3Cr	69
<i>E. Dalgaard, P. Wanjara, J. Gholipour, X. Cao and J.J. Jonas</i>	
Microstructural and Thermal Processing Effects on Adding 3W/O Ti to a Powder Metallurgy Processed Ni-Cr-Fe Alloy.....	79
<i>D.C. Murray, D.A. Akinlade, W.F. Caley and N.L. Richards</i>	

PROTECTIVE COATINGS

The Diffusion Barrier Coating System Concept for High Temperature Applications.....	93
<i>T. Narita</i>	
Thermodynamic Assessment of Ternary NiCrAl Alloys – From Calculations to Experiments	117
<i>R.T. Wu, R.C. Reed, L.T. Wu, K. Kawagish and H. Harada</i>	

High Temperature Oxidation Behavior of Nanostructured CoNiCrAlY	123
<i>C. Kaplin, D. Mercier, G. Goodall and M. Brochu</i>	
Influence of Thermal and Cold Spray Processes on the Oxidation Performance of TBCS (ABSTRACT ONLY)	135
<i>W.R. Chen, X. Wu, E. Irissou, J-G. Legoux and B.R. Marple</i>	
Effects of Cathodic Arc Deposition Conditions on the Microstructure, Hardness, Adhesion and Erosion Property of Tin Coating (ABSTRACT ONLY)	137
<i>L. Zhao, Q. Yang and A. Sato</i>	
Study on Preparation and Properties of a Metal-based Al/Al ₂ O ₃ Gradient Coating.....	139
<i>J. Xiaolin, L. Suping, L. Baolan and L. Chongyang</i>	
Quantification of Microsegregation of Rapidly Solidified Al-Ni Alloys	147
<i>A. Ilbagi, I.P. Swainson and H. Henein</i>	
APPLICATION CHALLENGES	
From Great Idea to Profitable Production Parts: History of a Delicate Operation (ABSTRACT ONLY).....	157
<i>E. Irissou, W. Chen and J. Larose</i>	
Advanced Ni-base Superalloys for Small Gas Turbines.....	159
<i>J.B. Wahl and K. Harris</i>	
The Effect of Compressive Dwell on the Low Cycle Fatigue Behavior of a Nickel-base Single Crystal Alloy at 1100°C	173
<i>S. Yandt, D. Seo, P. Au, N. Tsuno and A. Sato</i>	
Development of NIMS Burner Rig and Cyclic Testing of Nickel Base Superalloys	185
<i>K. Matsumoto, Y. Koizumi, K. Kawagishi and H. Harada</i>	
REPAIR TECHNOLOGIES AND LIGHT WEIGHT MATERIALS	
Repair Technologies: Past and Present (ABSTRACT ONLY)	197
<i>R. Thamburaj</i>	
Weldability of Haynes® 282® Alloy	199
<i>H.J. White</i>	
Spinodal Copper Alloy C72900 – A New High Strength Anti-friction Alloy System	209
<i>W.R. Cribb and F.C. Gensing</i>	
Composite Materials in Aircraft Applications (ABSTRACT ONLY)	223
<i>Q. Xu and E. Sun</i>	
The Effects Processing Sintering Parameters and Post-Sintering Operations in the Production of Magnesium Powder Metallurgy Parts.....	225
<i>P. Burke, C. Petit, V. Vuaroqueaux, A. Doyle and G.J. Kipouros</i>	
Powder Metallurgy Processing of 2XXX and 7XXX Series Aluminum Alloys	235
<i>D.P. Bishop, W.F. Caley, G.J. Kipouros, R.L. Hexemer Jr. and I.W. Donaldson</i>	
Author Index.....	247
