## Advances in Mineral Processing Science and Technology

Foreword .....	v
In Honor of James A. Finch.....	vii

### KEYNOTES

Potash Ore Flotation Mechanism: Amine Molecules Adsorption or Amine Particles Attachment?.....	3
<i>J.S. Laskowski and E. Burdukova</i>	
Surface Force Measurements between Gold Surfaces in Xanthate Solutions.....	13
<i>J. Wang and R-H. Yoon</i>	
The Total Air Addition and Air Profile for a Flotation Bank .....	29
<i>C.D. Smith, K. Hadler and J.J. Cilliers</i>	
Advances in Fine and Coarse Particle Flotation.....	39
<i>G.J. Jameson</i>	
Froth Recovery Factor – What is it, and Why is it so Difficult to Measure?.....	49
<i>J.P. Franzidis and M.C. Harris</i>	

### FLOTATION: FUNDAMENTALS

Analysis of Polyamine Deactivation/Depression System for Cu-Activated Pyrrhotite using Eh-pH Stability Diagrams.....	63
<i>S. Kelebek, C. Tukul and E. Yalcin</i>	
The Point of Zero Charge of Phyllosilicate Minerals using the Mularroberts Titration Technique.....	75
<i>M. Alvarez-Silva, A. Uribe-Salas, M. Mirnezami and J.A. Finch</i>	
Theory and Use of Polysaccharides as Selective Depressants in Flotation of Complex Sulfide Ores.....	87
<i>J.S. Laskowski, Q. Liu and A.L. Valdivieso</i>	
Mechanism of Alkaline Earth Metal Ion Adsorption on Sulphide Minerals.....	99
<i>M. Mirnezami, M.S. Hashemi A. and J.A. Finch</i>	
Self-Heating of Sulphide Mixtures .....	107
<i>R.A. Payant and J.A. Finch</i>	
Mössbauer Spectroscopy for Quantification of Pyrrhotite in Pyrrhotite/Pentlandite Mixtures Related to Self-Heating .....	115
<i>A. Navarra, J.T. Graham, S. Somot, D.H. Ryan and J.A. Finch</i>	

### FLOTATION: FROTH AND FROTHERS

Effect of Frother Blends on Hydrodynamic Properties.....	125
<i>A.M. Elmahdy and J.A. Finch</i>	
On-Line Estimation of Frother Concentration for Flotation Processes.....	135
<i>M. Maldonado, A. Desbiens, R. del Villar and R. Aguilera</i>	

Frother Analysis in Industrial Flotation Cells.....	147
<i>A. Zangooi, C.O. Gomez and J.A. Finch</i>	
Water Recovery and Bubble Surface Area Flux.....	155
<i>W. Zhang, J.E. Nasset and J.A. Finch</i>	
Frother and Collector Effects on Flotation Cell Hydrodynamics and their Implication on Circuit Performance.....	169
<i>F. Cappuccitti and J.E. Nasset</i>	
A Comparison of Bubble Rise Velocity Profile of Two Surfactants to Explain Gas Holdup Data .....	183
<i>A.A. Rafiei and J.A. Finch</i>	
Modifications to Foam Volume Measurements.....	193
<i>R.R. Cunningham and J.A. Finch</i>	

### **FLOTATION: DEVELOPMENTS AND PRACTICE**

The Impact of Crushed Ore Ageing on Metallurgical Performance .....	205
<i>D. Lascelles, O. Peters and R. Caldwell</i>	
Flowsheet Development for Thompson Ultramafic Low-Grade Nickel Ores.....	217
<i>Z. Dai, J.A. Bos, P. Quinn, A. Lee and M. Xu</i>	
A Property Based Model of Flotation and Application in a Dynamic Simulator for Training Purposes.....	229
<i>P. Lamberg, S. Paloranta, A. Aaltonen and H. Myllykangas</i>	
Increased ZnS Flotation Response Due to Slime Removal with Methanol Treatment .....	241
<i>M.E. Holuszko, M.A. Hampton, A.V. Nguyen, J.P. Franzidis and E.V. Manlapig</i>	
Microbially Induced Selective Flotation for Complex Sulfides.....	253
<i>M.N. Chandrababha and K.A. Natarajan</i>	
Coarse and Fine Particle Flotation.....	265
<i>H.E. Wyslouzil, J. Kohmeunch, L. Christodoulou and M. Fan</i>	
Dynamic Bubble Nucleation in Flotation .....	277
<i>Z.A. Zhou, R.S. Chow, P. Cleyle, Z.H. Xu and J.H. Masliyah</i>	

### **FLOTATION: MACHINE CHARACTERIZATION AND OPTIMIZATION**

On the Carrying Capacity Limitation in Large Flotation Cells.....	291
<i>J.B. Yianatos and F.A. Contreras</i>	
Gas Distribution in Mechanical Flotation Machines: Data Interpretation .....	301
<i>R. Araya, C.O. Gomez and J.A. Finch</i>	
Gas Dispersion Characterization of Tankcell®-300 at Chuquicamata Concentrator.....	313
<i>A.B. Yañez, P. Morales, F. Coddou, H. Elgueta, J.M. Ortiz, C. Perez, G. Cortes, C.O. Gomez and J.A. Finch</i>	
The Relation between the Aeration Characteristics of Flotation Columns and Metallurgical Performance .....	325
<i>F. López-Saucedo, A. Uribe-Salas, L. Magallanes-Hernández, R. Pérez-Garibay and C. Lara-Valenzuela</i>	
Evaluating the Effect of Operational Changes at Vale Inco’s Clarabelle Mill .....	337
<i>J. Doucet, C. Price, R. Barrette and V. Lawson</i>	

Gas Dispersion Studies at Highland Valley Copper .....	349
<i>J.R. Hernandez-Aguilar</i>	
Applying Fractional Factorial Design in Optimizing Barite Flotation of Jig Tailing at Dorrin Kashan Mine .....	361
<i>M. Zavvari</i>	
<b>COMMUNITION, GRAVITY SEPARATION, FLOCCULATION, SEDIMENTATION</b>	
Pre-Concentration of Platinum Group and Base Metal Ores by Dense Medium Separation .....	373
<i>A.R. Holloway, L. Jones and S.R. Lawrence</i>	
Current Challenges in PGM Flotation of South African Ores .....	385
<i>B.D.H. Knights and M.A.W. Bryson</i>	
A Role of Flocculant Conformation in the Flocculation Process.....	397
<i>V. Ferrera, E. Arinaitwe and M. Pawlik</i>	
An Approach to Measure Zeta Potential Using Sedimentation Potential Method .....	409
<i>S. Uddin, M. Mirnezami and J.A. Finch</i>	
New Developments in Sensor Based Sorting .....	421
<i>K. Bartram and M. Kowalczyk</i>	
Mineral Liberation and Particle Breakage in Stirred Mills.....	433
<i>R. Roufaiil and B. Klein</i>	
Impact on Mill Design and Flotation Control of New Discoveries in the Relationship Between Macro and Micro Grindability .....	445
<i>J.H. Starkey</i>	
Probing Mineral-Bitumen Liberation through Rheological Measurements .....	451
<i>L. Gutierrez and M. Pawlik</i>	
Author Index.....	463
Keyword Index .....	465
