

PROCEEDINGS

 PAPER 3: VERTICAL CONVEYORS IN DEEP SHAFT MINING	1
Jose Montoya, FKC – Lake Shore, Evansville, IN, USA	
 PAPER 9: NEXT LEVEL OF SIL (SAFETY INTEGRITY LEVEL) BY A NEW INTEGRAL APPROACH FOR A COMPLETE HOISTING SYSTEM	8
P. H. Noy, SIEMAG TECBERG UK Ltd., Rugby, UK	
 PAPER 11: SHAFT HOISTING SYSTEM FOR A NEW MINE IN RUSSIA, INCLUDING THE WORLD'S DEEPEST KOPE HOIST; SKS1 SHAFT NORILSK/SIBERIA	19
Klaus Hofmann, SIEMAG TECBERG GmbH, Haiger, Germany	
 PAPER 15: EMBEDDED CONTROL SYSTEM SIMULATION FOR MINE HOISTS	30
D. Stefou, Hepburn Engineering Inc., Etobicoke, ON, Canada	
 PAPER 16: CERBERUS SIL RADIO SYSTEM	36
N. Craddock, Tecom Australia, Mayfield East, NSW, Australia	
 PAPER 17: OLYMPIC DAM CLARK SHAFT TECHNOLOGY UPGRADE – CASE STUDY	41
P. J. Moore, BHP Olympic Dam Corporation Pty Ltd., Adelaide, Australia; C. M. Rossetti, AECOM Australia Pty Ltd., Fortitude Valley, Queensland, Australia	
 PAPER 18: OPTIMISATION OF WINDER SKIP WEAR LINERS USING THE DISCRETE ELEMENT METHOD	52
Nicholas Jones, AECOM Australia Pty Ltd., Brisbane, Australia	
 PAPER 20: DEM MODELING OF SKIP LOADING & UNLOADING PERFORMANCE PROVIDES THE CONFIDENCE TO INCREASE HOISTING CAPACITY IN EXISTING MINE SHAFTS	67
T. Holmes, Jenike & Johanson Ltd., Mississauga, ON, Canada; S. Gorzalczynski, Wabi Iron & Steel Corp., New Liskeard, ON, Canada	
 PAPER 21: HOISTING SYSTEM MAINTENANCE – A RISK-BASED APPROACH FOR ESTABLISHING SAFE AND EFFICIENT STRATEGIES	76
L. Prior, AECOM Australia Pty Ltd., Brisbane, Australia; B. McDermott, Ernest Henry Mining Pty Ltd., Cloncurry, Australia	
 PAPER 23: HOIST MAINTENANCE SAFEGUARD SYSTEM IMPLEMENTATION AT VALE'S SUDBURY OPERATIONS	89
Allan Guse, P.Eng., Vale Canada Ltd., Sudbury, ON; Francis Lacasse, P.Eng, ABB, Montreal QC	
 PAPER 25: USE OF DIGITAL TOOLS FOR MINE HOIST SYSTEM MONITORING	98
Magnus Uddman, ABB, Vasteras, Sweden; Francis Lacasse, P.Eng, ABB, Montreal, QC	

 PAPER 26: HEAVY LIFT BLOCK HOISTS	105
D. M. Koekemoer and R. Harwood, ABB South Africa Ltd., Gauteng, RSA	
 PAPER 28: ANNUAL INSPECTIONS ON MINE HOISTS	116
F.A. Engelbrecht, ABB South Africa, Rustenburg, South Africa	
 PAPER 32: FUTUREPROOFING CONVEYOR HAULAGE SYSTEMS	126
Ric Featherstone, AECOM Australia Pty Ltd., Brisbane, Australia	
 PAPER 37: PRACTICAL IMPLEMENTATION OF RISK MANAGEMENT PROGRAMS FOR SHAFTS AND HOIST PLANTS	138
Jason Morrow, Stantec, Chandler, AZ, USA	
 PAPER 38: THE IMPACT OF USING HYBRID ROPES ON A KOEPE HOIST	145
Roger Algotsson and Per Johansson, ABB AB, Vasteras, Sweden; Henry Schultheis and Pengzhu Wang, Bridon International Ltd.	
 PAPER 39: SINGLE-DRUM WINDERS: DESIGN CONSIDERATIONS FOR IMPROVED BRAKE CONTROL	156
S. D. Grover and M. P. du Plessis, DRA Projects Pty (Ltd.), Sunninghill, South Africa	
 PAPER 46: HEADFRAME DESIGN SELECTION: STEEL VS. CONCRETE HEADFRAME, VERSION 2.0	169
R.M. Heppler, WSP Canada Inc., Thunder Bay, ON, Canada; Z.A. White, Structural Engineer	
 PAPER 47: SHAFT GUIDE DESIGN: FIXED GUIDES VS. ROPE GUIDES	178
D. M. Ziebarth and R.M. Heppler, WSP Canada Inc., Thunder Bay, ON, Canada	
 PAPER 51: DEVELOPING PERFORMANCE REQUIREMENTS FOR BLAIR MULTI-ROPE (BMR) HOIST COMPENSATING SHEAVES	193
M. R. Lepage and J. P. B. DeBenedet, Cementation Canada Inc., North Bay, ON, Canada	
 PAPER 52: NEW ROPE HANDLING EQUIPMENT, STAND-ALONE OPERATION, AND SYSTEM INTEGRATION AT NUTRIEN ALLAN	202
M. A. Morissette and M. A. Tomtene, Nutrien Allan Potash, Allan, SK, Canada; M. Schmidt, Siemag Tecberg GmbH, Haiger, Hessen, Germany	
 PAPER 55: TECHNO-ECONOMIC FACTORS IN THE SELECTION OF AN UNDERGROUND MINE ORE HAULAGE SYSTEM – AN AUSTRALIAN PERSPECTIVE	218
S. Wilson, AECOM Australia Pty. Ltd., Brisbane, Australia	
 PAPER 56: AN IMPROVED METHOD FOR MINE HOIST RISK ASSESSMENTS USING A QUANTITATIVE APPROACH	230
Alonso C. Morey, ABB Sweden; Francis Lacasse, ABB Canada	

 PAPER 58: CAGE GUARDIAN™ SAFETY BRAKE FOR STEEL GUIDES	239
M. Thiesen, D. Strong, and H. Laarakker, FLSmidth Ltd., Orillia, ON, Canada	
 PAPER 59: EMERGENCY EGRESS HOIST PLANT SELECTION	248
Joshua MacDonald, Sudbury, ON, Canada	
 PAPER 60: DEVELOPMENT OF AS 4730 SERIES OF STANDARDS: MINING – WINDING EQUIPMENT	254
Michael Taylor, Advitech Pty Ltd., Newcastle, NSW, Australia; Michael Fitjer, Hoisting Technology Consultant	
 PAPER 63: KOEPE FRICTION HOIST ROPE REPLACEMENT METHOD WITHOUT A FRICTION WINCH	259
Adam Bieńkowski, Sadex, Rybnik, Poland; Robert Bućko, Sadex-Serwis, Rybnik, Poland	
 PAPER 68: HOIST LIFE, FATIGUE LIFE, AND INSURABILITY	271
Ian F. Armitage, Hepburn Engineering Inc., Toronto, ON, Canada; Grzegorz Glinka, Department of Mechanical and Mechatronics Engineering, University of Waterloo, Waterloo, ON, Canada	
 PAPER 72: MACHINE LEARNING – A DYNAMIC MODEL FOR STRAIN-ENERGY ABSORPTION SYSTEMS	283
C. H. Stephenson, H. W. Stephenson, and J. D. E. Apps, Technogrid (Pty) Ltd., Western Cape, South Africa	
 PAPER 75: STIFFNESS EVALUATION OF HOIST DRUMS	298
Nelis van der Walt and Faure Louw, Winder Controls, a member of the SIEMAG TECBERG Group, Haiger / Kalteiche, Germany	
 PAPER 77: REVIEW OF INDUSTRY BEST PRACTICES FOR THE USE AND MAINTENANCE OF SHAFT ROPES ON CONVENTIONAL DRUM HOISTS AND MULTI-ROPE FRICTION WINDERS	311
P. G. Smith and A. Axiuk, Haggie North America Inc.
